

The Divorce Surgery

23rd May 2018

Samantha Woodham and Harry Gates have recently established The Divorce Surgery, believed to be the first BSB regulated service that allows separating couples obtain joint legal advice from a single, family law barrister.

The Divorce Surgery allows couples to instruct one impartial and experienced Barrister to advise them on how the court would view their divorce case.

This short circuits the current legal process saving you time, money and enabling you to part in a dignified and non-confrontational way.

The Divorce Surgery is an Alternative Business Structure (ABS) regulated and approved by the Bar Standards Board.
